SCOUNTS

Payment Approval Website Guide

A simple, professional checklist to help your website look ready for payment gateways, EMIs and PSPs.

The goal is simple: When a payment provider visits your website, they should quickly understand who you are, what you sell, how customers pay, and how you protect them.

01	**Look Legit** Show your real business identity and contact details.
02	**Explain Clearly** Make your products, services and prices easy to understand.
03	**Build Trust** Add proper policies, support and security information.
04	**Stay Consistent** Make sure the website matches your application and documents.

Prepared by Scounts for our clients

1. Business Identity

A payment provider should be able to identify your business quickly.

- ■ Legal company name is clearly shown.
- ■ Brand name matches the name used in your application.
- ■ Business address is visible.
- ■ Official email address is available.
- ■ Phone number is available.
- ■ NTN and registration information are shown where appropriate.
- ■ About Us page explains who you are and what you do.
- ■ Website information matches your submitted company documents.

2. Tell Visitors Exactly What You Do

Keep the language simple. A new visitor should understand your business in a few seconds.

- ■ Clearly explain your main business activity.
- ■ Explain who your customers are.
- ■ Explain what you sell.
- ■ Explain how customers place an order.
- ■ Explain how the product/service is delivered.
- ■ Clearly mention the countries or markets you serve.
- ■ Avoid vague, exaggerated or misleading claims.

3. Products & Services

Every service you charge customers for should be easy to find and understand.

- ■ Each major product/service has a clear description.
- ■ Price is clearly displayed.
- ■ What's included is explained.
- ■ Delivery time is mentioned.
- ■ One-time or recurring payment is clearly stated.
- ■ Any extra charges are disclosed.
- ■ Website services match the services declared to the payment provider.

4. Pricing & Checkout

- ■ Currency is clearly displayed.
- ■ Customer sees the final amount before paying.
- ■ Taxes and other charges are clearly explained.
- ■ Customer can review the order before payment.
- ■ Relevant policies are accessible during checkout.
- ■ There are no hidden recurring charges.

5. The 5 Policies You Should Not Miss

Policy	Simple purpose
Terms & Conditions	Rules for using the website and purchasing your services.
Privacy Policy	How customer information is collected, used and protected.
Refund & Cancellation	When customers can cancel and when refunds are available.
Service Delivery	When and how the customer receives the service/product.
Complaints / Disputes	How customers can report and resolve a problem.

6. Contact & Customer Support

Make it easy for a customer — and a payment provider — to reach you.

- ■ Dedicated Contact Us page.
- ■ Business address, phone and email are visible.
- ■ Support hours are mentioned.
- ■ WhatsApp or another support channel is available where suitable.
- ■ Expected response time is mentioned.
- ■ Contact form works properly.

7. Security

Your website should give customers confidence that their information is handled safely.

- ■ HTTPS/SSL is active.
- ■ No security warnings appear in the browser.
- ■ All important pages and forms work.
- ■ Customer/payment information is handled securely.
- ■ Login areas have suitable security controls.
- ■ Security claims are genuine and can be supported if requested.

8. After Payment

Don't let the customer wonder: 'Did my payment go through?'

- ■ Successful payment page is available.
- ■ Order/transaction reference is generated.
- ■ Amount and payment date are shown.
- ■ Purchased product/service is identified.
- ■ Next step or delivery time is explained.
- ■ Payment confirmation is sent where appropriate.
- ■ Failed and cancelled payments are clearly handled.

9. Build Real Trust

Small details can make the business look much more professional.

- ■ Professional About Us page.
- ■ Real team/founder information where appropriate.
- ■ Real office/business information.
- ■ Genuine customer reviews or testimonials.
- ■ Genuine partners, certifications or awards.
- ■ Relevant social media profiles.
- ■ No fake customer logos, reviews or regulatory claims.

10. Add a Simple FAQ

- ■ How does the service work?

- How can I pay?
- Is payment secure?
- How long does delivery take?
- Can I cancel?
- Can I get a refund?
- How can I contact support?
- What documents/information are required?
- Is there any recurring payment?

11. If You Are a Fintech / Financial Business

- KYC/customer verification information is explained where relevant.
- AML/CFT information is available where relevant.
- Fraud prevention measures are explained where appropriate.
- Complaint handling is clear.
- Transaction limits/restrictions are disclosed where applicable.
- Regulatory status is stated accurately.
- Do not claim an SBP, SECP or other licence unless you actually have it.

12. Your Website Footer

Keep the important links available on every page.

Legal Business Name • Address • Phone • Email • Terms & Conditions • Privacy Policy • Refund Policy • Contact Us • Complaints • Social Links

13. Quick Red-Flag Check

- No business address or contact details.
- No refund/cancellation policy.
- No Terms & Conditions.
- No Privacy Policy.
- No clear pricing.
- Website and application describe different businesses.
- Company name does not match the documents.
- Broken, empty or unfinished pages.
- Unclear service delivery.
- Hidden recurring charges.
- Fake reviews, clients or regulatory claims.

Scounts Final 5-Minute Check

Before submitting your application, ask five questions:

1. Can someone understand my business in 30 seconds?
2. Can they clearly see what I sell and its price?
3. Can they easily find my contact details?

4. Can they find my Terms, Privacy and Refund policies?
5. Does everything on my website match my payment application and business documents?
